Section 4 of the Bombay Growth of Foodcrops Act, 1944, empowers the Provincial Covernment to prescribe the minimum proportion of the cultivator's holding in which scheduled foodcrops shall be grown after the date of the order in any cultivator's holding in that area during the twelve months immediately following the date of the order.

2. It will be observed that the order is to be issued annually and is to remain in force for a period of 12 months from the date of the order. The minimum proportion fixed by Government every year will not necessarily be the same as in the previous year.

3. What the Act aims at is to increase the production of scheduled foodcrops and so long as Government is satisfied that the increased production of such foodcrops is maintained it is immaterial whether in any specified year the actual proportion of the cultivator's holding in which any scheduled foodcrops are grown is less than in the previous years.
